

Varimixer

KODIAK 20

Table model

VERY SIMPLE INTUITIVE OPERATION Set the time and speed. Press start and stop. It's that simple, and everything is controlled at an ergonomic working height from the angled control panel.

ERGONOMIC RAISING AND LOWERING

The ergonomically designed handle lowers and raises the bowl and locks it in place in a single movement.

RUNS ON 120 VOLTS KODIAK can be connected to a normal power outlet. A frequency converter and a rugged 1.6hp motor make Varimixer KODIAK a very powerful mixer.

FRONT ATTACHMENT DRIVE KODIAK is also available with an attachment drive for meat grinder and vegetable slicers.

PATENTED DETACHABLE SAFETY GUARD The guard has an integrated filling tray, is made of transparent polycarbonate and is dishwasher safe. It can be attached instantly without tools. The guard is held in place by magnets, which also serve as a safety cut-off.

WORLD'S MOST EFFECTIVE WHIP Unique design increases speed at the periphery and reduces the working time.

TWO MACHINES IN ONE The KODIAK 20-quart model can be supplemented with a smaller 12-quart bowl and associated tools, for production in reduced quantities. This increases the machine's versatility.

IP44 (Ingress Protection rating) The Varimixer KODIAK can be cleaned in line with the IP44 standard including splashing water

STAINLESS STEEL Made of easy-to-clean stainless steel with a strong frame and high, adjustable legs, to allow cleaning under the machine. The bowl, wire whip, beater, dough hook and scraper are also made of stainless steel and are dishwasher safe.
